ABOUT THE COLLEGE

Government Degree College, Baramulla-a premier institute of learning is situated at a distance of 51 Km towards north-west from the summer capital of Srinagar. The college with a potential for Excellence status has been imparting education for the past six decades. Over the years the college has produced eminent stalwarts of eminence who have been contributing towards upliftment of the society in various spheres.

Government College Baramulla attributes much of its success to the rich cultural heritage of Baramulla. The high literacy rate in the town, its multi-ethnic character, tolerance and inter-community brotherhood has had its impact on the healthy growth of this institution. The college offers Bachelors and post graduate general courses in various disciplines of science, Arts, Humanities and Commerce.

Add-on-courses and Entrepreneurship oriented skill courses are available to the bonafide students in various disciplines. A state of art smart library is a unique feature of the college. Hostel accommodation is available to off-station male and female students. The college is connected to EDUSAT on the national beam maintained by ISRO as well as state EDUSAT. Sports is blended with education for overall development of the students.

Recently the college has achieved another major landmark and was granted autonomy by the UGC on 26th May, 2022. At present the college is geared up to shift to the autonomous mode.

ABOUT THE CONFERENCE

In the present era of educational complexities wherein there is a miniscule scope for practical learning, research, creative thinking, skill and innovation, there is a need to revolutionise the education system with multi-dimensional reforms. In order to achieve these quality reforms, NEP-2020 aims for academic excellence and expansion with institutional autonomy as the prime objective. This objective is targeted to be achieved by the year 2040.

Attaining and sustaining the autonomy is a big challenge. Addressing the limitations of enrolment, quality, poor infrastructure, supporting facilities, inadequate research and poor governance structure add to the complexity of this situation. Revamping the system from an affiliated nature to autonomous blended with the objectives of NEP-2020 needs a clear vision and a strategic roadmap. In this backdrop, our college which has recently attained autonomy has taken up the responsibility of addressing these complexities as well as limitations and devise a roadmap for successful sustenance of institutional autonomy in view of the associated problems in the present scenario. Therefore, an effort has been made to provide a platform to discuss these complexities, deliberate on issues, devise a practical approach to attain this goal of NEP-2020. This conference shall be interface for academicians, administrators, policy makers, researchers and students to deliver their responsible role as the major stakeholders of this reform.
